

Please do NOT allow the Low Power FM Stations to take priority over current FM translator service and thus discontinue access to stations like K-LOVE, which we listen to on an FM translator. Our family is avid listeners of K-LOVE because it offers family friendly, positive music and messages. Without this station we would be very hard pressed to find a station that our whole family can listen to without having to worry about the language or crude humor that is readily available on other stations. K-LOVE is a station that my daughters and I can both listen to and enjoy, without me having to explain or be embarrassed by the things being said. I believe that some of the things that are allowed to be presented on radio, where anyone can hear, are not things that children should hear. Just as movies and TV shows have ratings, now radio needs this too! The need for good, clean entertainment with a positive message is something that every community needs! And this is something that K-LOVE provides. So, don't allow it to be taken away. Please continue to allow it to be projected all over the U.S. via FM translators.
